THE [*Numb.* 882.]

MARYLAND GAZETTE,

Containing the lateſt Advices foreign and domeſtic.

THURSDAY, *April* 1, 1762.

From a late PUBLIC PAPER.

AS I have nothing more at Heart than the Good of my Country, the *Increaſe* of which depends immediately on the *Fair Sex*, I would take this Method, (being I think the moſt efficacious) of Public Conveyance to remind them of ſomething relating to their favourite Liquor TEA, which perhaps is the Cauſe of moſt of the Diſorders which are ſuppoſed to attend that innocent *Indian* Weed, and of which it is unjuſtly thought to be productive, I mean the common and almoſt univerſal Cuſtom of boiling the Water which is uſed for TEA in *Copper Veſſels*, vulgarly called *Tea-Kettles*.—'Tis well known that the Ruſt of *Copper* is *Verdigreaſe*, which I preſume none will deny to be prejudicial to Health, becauſe it was always eſteemed to be a ſort of Poiſon. Perhaps here the induſtrious *Copper-Smith* will object and ſay, What Harm can there be in this, ſeeing the *Tea-Kettle* is always lined with *Pewter* or *Tinn'd*? Does not the *Tin* prevent the *Copper* from doing any Damage to the Water? Hark ye, my Friend, if my Scheme ſhould take Place your Trade would not be good for much to be ſure; but I pray conſider whether it be not more for the Public Good (to which you ought to ſacrifice all Private Intereſt) that Thouſands of Lives ſhould be preſerv'd, than that the Fortunes of a very few ſhould be augmented by making and vending thoſe prejudicial Things called *Tea-Kettles*. But to return, the Noſes or Spouts of our *Tea-Kettles*, either by the Negligence of the Workman, or frequent Heating over the Fire, have ſeldom or ever any *Tin* on the Inſide, and by being ſo frequently wet muſt unavoidably contract the Ruſt above-mentioned, which infecting the Water with its noxious Qualities, is, I humbly preſume, productive of moſt, if not all, the Diſeaſes which are attributed to TEA itſelf.

For which Reaſon I heartily recommend to thoſe dear Creatures [the Ladies] the uſe of *Tea-Kettles* made of *Iron*, which are more advantageous upon a double Account, firſt by Reaſon of the *Cheapneſs* of them (tho' I believe that will not induce many Ladies to uſe them) but more eſpecially becauſe it will be leſs prejudicial to their Health than *Copper*, for *Iron* is not known to have any ſuch noxious Qualities attending it, being a very wholeſome Mineral.

Theſe Things, I aſſure my Reader, are not only founded on the Nature of Things (like Lord *Bolingbroke*'s Religion) but upon Facts and Experiments, and your *Grandmothers* will tell you that *Experience is the beſt School-Miſtreſs*.

If theſe Lines ſhould prove beneficial to any of the *Fair-Sex*, it will entirely anſwer the End propoſed, by

Their ſincere Admirer and very humble Servant,
PUBLICOLUS.

In the Month of October *laſt, was publiſhed in* London, *a Treatiſe on the Diſeaſe called* A Cold, *by Dr.* Chandler. *This Work abounds with a Variety of excellent Obſervations on the Nature, Cauſes, Effects, different Species, and Rules for avoiding* Colds. *The following is extracted therefrom, which may ſerve for Inſtruction here.*

ALL weakly Perſons, or others ſubject to catch Cold, ſhould be admoniſhed againſt frequenting raw, uninhabited Rooms, or delaying on Paſſages, or Stair-Caſes; and Children ſhould be reſtrained from playing about ſuch dangerous Places, eſpecially in damp Weather, or after the *Houſe has been waſhed*; both which, from certain ſtated *Punctualities of Cleanlineſs* obſerved in this Country, or to ſatisfy *Female Nicety*, frequently happen together, and give Occaſion to Hoarſeneſſes, Sore-Throats, Coughs, and Fevers —— Whenever, in one or the other Seaſon, the Weather be rainy or moiſt, it is right to keep up a moderate Fire in all our inhabited Rooms; more eſpecially in the Evening and Night Times; and where Perſons are accuſtomed to employ themſelves, either in their Studies or Counting-Houſes. It is alſo prudent to have a Fire kindled in every Room, ſtatedly uſed for Dining, Retiring, or Reſt, after it has been *waſhed*; as it prevents the damp Vapours, which ariſe while it is drying, from flying up and bedewing the Cieling, fixing in Drops on the Furniture, and trickling down the Wainſcoting; or from hovering about the Room, by abſorbing and directing their Courſe up the Chimney; moreover, all ſuch Rooms ſhould be *thoroughly dry*, before any Perſon ventures to ſit, ſtand, and, above all, to *ſleep* in them: He will be more eſpecially liable to receive Miſchief by it, when warmed, and put into a State of increaſed Perſpiration, by Exerciſe of any Kind; or after having been in a warm Situation, either from the Sun or common Fire; or when heated by any Degree of Intemperance from Meats or Drinks.——

The benevolent Author then proceeds to give ſome Obſervations on Luxury, and the ſudden Changes of Weather, with the ill Effects ſuch Changes have on our Bodies, and ſome cautionary Rules how to avoid them.

MENTZ, *November* 1.

A BURGHER of this Town, after 8 Years Labour, preſented laſt Week to the Regency a new Piece of Artillery, not of Metal, but of Paſte, compoſed of Animal Gelly and Tow, which carries a Ball 400 Yards, and will beat down Walls at that Diſtance. The Ball is alſo of a particular Compoſition. The Piece need not be ſpunged till it has fired an Hundred Times; it weighs but Fifty Pounds, and each Ball but Two and a Half; ſo that one Man may carry the Piece, and another the Ammunition.

LONDON, *December* 8.

They write from Geneva, that on the 12th ultimo, ſome Hours before Day-break, there was ſeen in the Air a Globe of Fire, a little leſs than the Moon, which was then in her Full, but much more luminous. According to ſome Letters, this Meteor appeared at Half an Hour after Two in the Morning, and its Direction was from South to Weſt. Others ſay, that it was perceived between Four and Five, and that its Direction was from North to Eaſt. It drew after it a long and very brilliant Tail, and vaniſhed in about three Minutes, dividing itſelf into three Parts, with an Exploſion which ſhook the Windows of the Town-Houſe: From which many conclude, that at that Inſtant there was a Shock of an Earthquake.

Letters from Stockholm mention the following remarkable Accident which happened at Sandamala on the 26th of laſt Month, viz. That ſome Minutes before Sun riſing, all the Houſes in that Village were heard to crack. The Inhabitants, being greatly terrified, immediately ran out of their Houſes, and ſoon after, to their great Aſtoniſhment, ſaw Half the Houſes ſink 12 Feet into the Earth, for the Space of 64 Toiſes, [a Toiſe is 6 Feet.] This Accident did little Damage to the Houſes, except to the Chimneys, and hardly altered the Surface of the Earth round about them. At the Diſtance of 24 Toiſes, from theſe Houſes, there is a little Brook, the Bed of which is not ſo deep as before this Accident, but the Ground between the Houſes and the Brook is neither higher nor lower than before. At the Time the Houſes were ſinking, the Perſons preſent heard but little Noiſe; but thoſe at a Diſtance tho't they heard a loud Clap of Thunder. A Crack was perceived in the Earth near the Village, the Evening before this Event, but tho' it has not grown wider ſince, the Inhabitants are not without Apprehenſions of ſome Accidents of the ſame Nature, frequent Cracks being heard in the Neighbourhood.

An ancient and well atteſted Regiſter, which may be depended on, gives us the following very mortifying Inſtance of the Brevity of Human Life, of a Hundred Perſons who were born at the ſame Time:

At the End of 6 Years there remained *only*	64
At the End of 16 Years	46
At the End of 26 Years	26
At the End of 36 Years	16
At the End of 46 Years	10
At the End of 56 Years	6
At the End of 66 Years	3
At the End of 76 Years	1

Add to this Account the many Thouſands that periſh every Year by *War*, by its frequent Attendant *Famine*, and by *Peſtilence*. For ſome Years paſt, to the great ſcandal of our Holy Religion and its Author (which breathe nothing but Peace and Unanimity) thoſe who call themſelves *Chriſtians*, have ſlaughtered one another in Germany and in other Parts of the World, with all fell Rage of wild Barbarians, while the more virtuous Diſciples of *Mahomet* live in Peace and Unity among themſelves, and with their Neighbours. And all this waſte of Blood and Treaſure, is not for any important point of Religious or Civil Liberty, but merely to extend the Territories of the contending Princes.—It is amazing, that the Populace ſhould be ſuch Bubbles to the fantaſtic Ambition of their Rulers, as to cut one another's Throats for Six Pence a Day, when their own Circumſtances will not be at all improved which ever Party prevails:

The taunting Speech of Caled, General of the Saracen Army, to the Chriſtian Chiefs in the Siege of Damaſcus, is juſtly applicable to the preſent Age.

——*Your numerous Vices;*
Your claſhing Sects, your mutual Rage and Strife,
Have driv'n Religion and her Angel Guards
Like Out-caſts from among you. In her Stead
Uſurping Superſtition bears the Sway,
And reigns in mimic State, 'midſt Idol Show't
And Peagantry of Pow'r. Who does not mark
Your Lives; rebellious to your own great Prophet
Who mildly taught you.

NEW-YORK, *March* 18.

Such a long Continuance of ſevere cold Weather at this Seaſon of the Year, as we have had for ſeveral Weeks paſt, has not been known for many Years. The Proſpect is melancholy.—— The ſevere Drought laſt Summer, in this and the neighbouring Governments, greatly hurt the Crops of Grain and Hay, and the unuſual Duration of the Winter, has almoſt exhauſted the Farmer's Stores of Proviſion, which were ſhort at firſt; ſo that unleſs Providence ſpeedily interpoſes in our Favour, many of our Cattle, eſpecially in the New-England Governments, muſt periſh for Want of Food.

On Monday Morning, between Twelve and One o'Clock, the Fire Engine Houſe belonging to Schuyler's Copper Mines, at Second River, in New-Jerſey, took Fire, and was burnt to the Ground, and the Works belonging to the Engine, which it is ſaid coſt near Ten Thouſand Pounds, were deſtroyed. It is not known by what Means the Houſe was ſet on Fire, but it is conjectured to be by the Careleſſneſs of one of the Workmen, who was the only Perſon then in the Houſe. The Fire began below, where he acknowledges he lighted a Candle when he went to Bed in an upper Room in the ſecond or third Story, where he was waked by the Fire, and throwing his Coat over his Shoulders, he ran down to the lower Floor, which fell in with him into the Flames below, but by ſome Means, which he does not at all remember, he got out, but is terribly burnt. It is ſaid about 2000 Cord of Wood was likewiſe conſumed.

March 22.

Extract of a Letter from Montreal, dated the 3d *Inſtant, to a Gentleman in this City.*

"This Town is in the greateſt Tribulation on Account of the Loſs of a Cartel Ship that ſailed

from hence the Beginning of November, and was soon after cast away, and out of 120 Souls, that were on board, only six were saved; among them six, is the Captain, four others, and Monsieur St. Luke; the latter arrived here a few Days ago, after suffering much with Cold, Hunger and immense Fatigue: He has lost a Brother, two Sons, two Nephews, and several Relations and Friends. There were on board the Ship 14 Officers, 10 Ladies, and 14 young Men, all of Fashion; in short, scarce any Body here but what has lost some Relation, Friend, Child, Husband or Wife."

PHILADELPHIA, *March* 25.

On Sunday last Captain Wallace, arrived here from Guadaloupe, but last from St. Christophers, which he left the Middle of last Month, when they had no Certainty there of a Spanish War.——He informs us, That his Excellency Gen. Monckton, was in Possession of Fort Royal, in Martinico, which he got without much Opposition: That his whole Loss, from the Landing, to the Time of taking that Fort, he was told, did not exceed 300 Men, who were chiefly Highlanders, occasioned, as he heard, by a Sally from the Town; in which the Enemy were obliged to retreat, and our Troops pursuing too eagerly, some of the Highlanders got into the Town with the French, who shut the Gates upon them: And that it was thought the whole Island would soon surrender to the General. most of the Inhabitants, it was said, having proposed Terms of that Kind to him, but were rejected.

We also learn, that a Vessel is arrived at Rhode Island, from the West-Indies, which likewise brings an Account of General Monckton's being in Possession of Fort-Royal.

In a Letter from New-Providence, dated the First Instant, it is said, That a Vessel arrived there the Day before from Jamaica, and brought Advice, that the Spanish Vessels were detained there, on receiving an Account that the English Shipping were kept by the Spaniards in their Ports: And that there was an Embargo at Jamaica, for fear of an Invasion from some of the Spanish Settlements.

The General Assembly of the Government of New-York, in their last Sitting, among others, passed the two following Laws, viz,

"An ACT for levying, paying and cloathing "One Thousand Seven Hundred and Eighty-"Seven effective Men, Officers included, to be "employed in North-America, for securing His "Majesty's Conquests there, and for other Purpo-"ses therein mentioned.

"An ACT directing the Treasurer of this Co-"lony to pay the Commander in Chief of all His "Majesty's Forces in North America, the Sum of "Four Thousand Seven Hundred and Ninety "Pounds, for His Majesty's Service, to be repaid "when His Majesty shall think proper."

Last Night Captain Harper arrived here from Guadaloupe, which he left the 17th ult. and brought us the following most important Intelligence, viz.

THAT on the Twelfth of last Month, the whole Island of MARTINICO capitulated to His BRITANNIC MAJESTY. We have not the Articles of Capitulation; but understand the Substance of them is as follows.

THAT the Inhabitants are to be, in every Respect, British Subjects, take the Oaths of Allegiance, be subject to English Laws, and pay the same Duties, as in any of His Majesty's Leeward Islands; and are to be under Military Law, until it shall please the King to appoint Civil Officers: That they are not to educate their Children in France, without His Majesty's express Leave: That they are not to sell nor lease their Estates to any other than British Subjects: That the Regular Troops are to be Prisoners of War: And that the Inhabitants shall not be obliged to bear Arms against the French during this War.——Our Loss, it is said, does not exceed 500 Men.

Extract of a Letter from Guadaloupe, Feb. 17, 1762.

"*About two Hours ago the Major of War's Tender, the Dalrymple, came down here, and brought Ad-"vice of the Capitulation of Martinico; since "which I have seen the General's Secretary, who "affirms it to be true.*"

A Gentleman from Martinico, writes as follows: That it was amazing to see the Strength of Fort-Royal; and that if it had been properly defended, we should not have been able to take it: That there were found in it Guns mounted as follows, viz. 14 Forty-two Pounders; 9 Thirty-two Ditto; 23 Twenty-six Ditto; 4 Twenty-four Ditto; 26 Eighteen Ditto, and one Twelve Pounder:—— In all, Seventy-seven Guns.——Mortars, 3 of Thirteen Inches, and one of Seven Inches.—— Powder 600 Barrels.——Shells 575 of Thirteen Inches and an Half, and 22 of Ten Inches.

A few Vessels were found in the Harbour of Fort-Royal, viz. 2 Ships, 3 Snows, 1 Schooner, and 8 Sloops, afloat. Sunk, 9 Ships, 3 Brigs, 1 Schooner, and 2 Sloops; also six Sloops at a Bay above the Harbour,

ANNAPOLIS, *April* 1.

Beside the foregoing Account, of the Surrender of the Island of *Martinico*, to the *British* Arms, and his Majesty's Obedience, we have it sundry other Ways: Capt. *Tucker*, who arrived here on Sunday last, in a Brigantine from Providence, heard it from a Vessel just arrived there from the *West-Indies*; and Yesterday Capt. *Mayberry*, from *St. Kitt's* (which he left the 24th of *February*) informs us they had there a certain Account of the Surrender of the Island: Upon the Whole, there is no Doubt to be made of the Truth of this great and important Conquest, with which we most heartily congratulate our Readers.

Capt. *Mayberry* further informs us, That several *Spanish* Vessels had been taken and carried into *St. Kitt's*, on Suspicion of having *French* Property on board, but were afterwards Discharged.

Tuesday Night last we had a Thunder Gust, uncommon at this Season: On the North Side of *Severn* the Lightning killed a Bull.

Last Week an Overseer at a Quarter of Mr. *Nicholas Dorsey*'s, on *Patapsco*, in this County, gave one of the Negro Men under his Care, such an unmerciful and barbarous Flagellation, that the poor Fellow died soon after; and the Overseer has since made his Escape.

About Eleven Thousand Pounds of our Paper Currency, has been already burnt and destroyed in the Paper Currency Office, this Session, in Presence of a Committee of both Houses of Assembly.

LOTTERY,

For the disposing of Effects to the full Value of Two Thousand Pounds Virginia *Currency, without any Deduction.*

THE Subscriber intending for *England* as soon as he can possibly accomplish it, his Affairs suffering greatly there on Account of his Absence, proposes this Method as the most expeditious to dispose of his Effects. It is with great Diffidence that he addresses the Public, as he is sensible that their Patience and Generosity must be almost wearied out with so many Repetitions of Things of this Nature: And nothing but the present Situation of his Affairs, both here and at home, could have prevailed upon him to do it; which, he would gladly flatter himself, that to his Friends and Well-wishers, to those who feel a secret Pleasure in assisting such as labour under Difficulties, will afford Motives sufficient to remove any Prejudices they may have entertained against Lotteries of this Sort. To the Public in general, very powerful Inducements to adventure will not be wanting. This Lottery is beyond Dispute as well calculated for the Advantage of Adventurers as any yet offered to the Public, as every Article in the Collection will be valued at the lowest Rates, and the Prizes paid off without any Deduction. Almost all the Schemes hitherto presented to the Public, propose a Deduction of Fifteen *per Cent.* at least, to raise, as it is called, a Sum in that Proportion, which, in this present Lottery, would amount to Three Hundred Pounds; which the Adventurers will have the Benefit of, as the Subscriber does not want to make any Advantage by Deductions, but only to dispose of what Effects he has on Hand as soon as possible, at a reasonable Rate.

In the first Place, the Lottery will consist of Eight Tracts of Land (for which effectual Deeds will be given to the Fortunate); great Part of them upon, and none of them Ten Miles distant from, *Potowmack*, which, for Richness of Soil, are exceeded by very few Lands in *America*; and that Lands, particularly such as are situated in the Back Countries daily increase in Value, is a Circumstance too well known to be insisted on.

N°. 1. *Arcadia*, lying upon a Branch of *Patterson*'s Creek, containing 750 Acres, 300 Acres of which may with Ease be made as good Meadow as any in *Virginia*. The greatest Part of the rest is rich enough to produce Corn in great Abundance, without the Trouble of attending after it is put in the Ground. A delightful Stream runs through it, with which, at any Season of the Year, the Whole may be watered.

N°. 2. *Wigton*, lying upon the North Fork of *Patterson*'s Creek, containing 418 Acres of extremely rich and valuable Land, and possessed of every Advantage that Land unimproved can boast of.

N°. 3. *Tirzah*, lying upon the South Branch of *Potowmack*, containing 400 Acres, about 30 Acres cleared, Ten of which as rich Meadow Ground as in *America*. A Tenant lives upon it.

N°. 4. *Kelske*, lying upon the South Branch of *Potowmack*, containing 230 Acres, betwixt 30 and 40 Acres cleared, was planted with Corn last Year, and produced a prodigious Crop. There runs through it an excellent Stream for a Mill, called *Turn-Mill-Run*, which preserves nearly an equal Height all Seasons of the Year.

N°. 5. *Paphos*, lying upon the Waters of *Patterson*'s Creek, about 7 or 8 Miles from *Potowmack*, containing 221 Acres; which, for Richness of Soil, may vie with any Lands upon the Face of the Earth. The Stream, which waters it, abounds with Trout and a Variety of other Fish. It is situated most advantageously for a Range for Cattle.

N°. 6. *Abby-Holm*, situated upon one of the Waters of the South Branch of *Potowmack*, called *Hickory-Bottom-Run*, containing 400 Acres, 150 of which is extreme rich Bottom, and may be watered at Pleasure. The rest is well adapted for Grain of every Kind. It's Situation also convenient for an extensive Range.

N°. 7. *Mamre*, lying upon the Waters of *Patterson's* Creek, containing 400 Acres, very rich Land, watered with a beautiful Stream.

N° 8. *Cumberland*, lying upon *Stony-Lick-Run*, about 7 or 8 Miles from *Potowmack*, containing 220 Acres of very rich Land, and an extensive Range for Cattle round it.

A very neat Assortment of Dry Goods, fresh, and only now opening; consisting of a Variety of fashionable Silks, newest fashion'd Millinery, and all Sorts of Womens Wear; Broad-Cloths, Jeans, Sagathies and Duroys; Stuffs of sundry Kinds;

Hats laced and plain; together with all Kinds of Mens Apparel; and a Number of other Articles too tedious to mention.

A large and very valuable Collection of Books, in Hiſtory, Divinity, Natural Philoſophy, Commerce, and on almoſt every Art and Science; amongſt which are *Poſtlethwayt*'s Commercial Dictionary, *Chambers*'s Cyclopædia, Twenty Volumes of the Univerſal Hiſtory of all Nations, *Locke*'s, *Addiſon*'s, *Pope*'s, *Swift*'s, Sir *Iſaac Newton*'s, *Monteſquieu*'s, *Voltaire*'s, *Muralt*'s, Marquis *D'Argen*'s, Works; *Rowning*'s, *Graveſande*'s, and *Rohault*'s Natural Philoſophy; *Newintot*'s Religious Philoſopher; *Salmon*'s Geography; *Pliny*'s and *Cicero*'s Letters, tranſlated by *Melmoth*; alſo the latter's Orations and Offices; *Harris* on the Globes; *Rollin*'s Ancient Hiſtory and Belle Letters; *Watts*'s Philoſophical Eſſays; Jeſuit's Perſpective; with a Variety of the beſt Authors on every Branch of the Mathematics. The Reviews, Gentleman's, *London*, and Univerſal Magazines; and a Number of Plays, Novels, and other Books of Entertainment.

A great Variety of the lateſt done Maps, coloured and executed in the moſt elegant Manner. A conſiderable Collection of Perſpective Views of the moſt magnificent public and private Edifices, Bridges, Monuments and Ruins, in *Rome*, *Venice*, *France*, *England*, and *China*; with a curious magnifying perſpective Mirour. A Collection of the genteeleſt Pictures, done by *Hogarth*, and other maſterly Hands. His Election Prints are amongſt them.

The Prizes will be claſſed in ſuch Order, that the Fortunate may have as compleat a Variety as the Value of the Prize will admit of.

The whole Collection to be examined by diſintereſted Perſons, who are well acquainted with the Worth of each Article, and the intrinſic Value to be aſcertained by them, that the Public may be ſatisfied there can be no Fraud in the Undertaking. And to prevent the leaſt Appearance of Confuſion, particular Mention will be made on each fortunate Number in the Wheel, what the Prize conſiſts of. After the Drawing is finiſhed, Care will be taken to forward the Prizes of the Fortunate, that are moveable, to any Part of the Continent, in ſuch Manner as they may pleaſe to order.

from hence the Beginning of November, and was soon after cast away, and out of 120 Souls, that were on board, only six were saved; among them six, is the Captain, four others, and Monsieur St. Luke; the latter arrived here a few Days ago, after suffering much with Cold, Hunger and immense Fatigue: He has lost a Brother, two Sons, two Nephews, and several Relations and Friends. There were on board the Ship 14 Officers, 10 Ladies, and 14 young Men, all of Fashion; in short, scarce any Body here but what has lost some Relation, Friend, Child, Husband or Wife."

PHILADELPHIA, *March* 25.

On Sunday last Captain Wallace, arrived here from Guadaloupe, but last from St. Christophers, which he left the Middle of last Month, when they had no Certainty there of a Spanish War.——He informs us, That his Excellency Gen. Monckton, was in Possession of Fort Royal, in Martinico, which he got without much Opposition: That his whole Loss, from the Landing, to the Time of taking that Fort, he was told, did not exceed 300 Men, who were chiefly Highlanders, occasioned, as he heard, by a Sally from the Town; in which the Enemy were obliged to retreat, and our Troops pursuing too eagerly, some of the Highlanders got into the Town with the French, who shut the Gates upon them: And that it was thought the whole Island would soon surrender to the General, most of the Inhabitants, it was said, having proposed Terms of that Kind to him, but were rejected.

We also learn, that a Vessel is arrived at Rhode Island, from the West-Indies, which likewise brings an Account of General Monckton's being in Possession of Fort-Royal.

In a Letter from New-Providence, dated the First Instant, it is said, That a Vessel arrived there the Day before from Jamaica, and brought Advice, that the Spanish Vessels were detained there, on receiving an Account that the English Shipping were kept by the Spaniards in their Ports: And that there was an Embargo at Jamaica, for fear of an Invasion from some of the Spanish Settlements.

The General Assembly of the Government of New-York, in their last Sitting, among others, passed the two following Laws, viz,

"An ACT for levying, paying and cloathing "One Thousand Seven Hundred and Eighty-"Seven effective Men, Officers included, to be "employed in North-America, for securing His "Majesty's Conquests there, and for other Purpo-"ses therein mentioned.

"An ACT directing the Treasurer of this Co-"lony to pay the Commander in Chief of all His "Majesty's Forces in North America, the Sum of "Four Thousand Seven Hundred and Ninety "Pounds, for His Majesty's Service, to be repaid "when His Majesty shall think proper."

Last Night Captain Harper arrived here from Guadaloupe, which he left the 17th ult. and brought us the following most important Intelligence, viz.

THAT on the Twelfth of last Month, the whole Island of MARTINICO capitulated to His BRITANNIC MAJESTY. We have not the Articles of Capitulation; but understand the Substance of them is as follows.

THAT the Inhabitants are to be, in every Respect, British Subjects, take the Oaths of Allegiance, be subject to English Laws, and pay the same Duties, as in any of His Majesty's Leeward Islands; and are to be under Military Law, until it shall please the King to appoint Civil Officers: That they are not to educate their Children in France, without His Majesty's express Leave: That they are not to sell nor lease their Estates to any other than British Subjects: That the Regular Troops are to be Prisoners of War: And that the Inhabitants shall not be obliged to bear Arms against the French during this War.——Our Loss, it is said, does not exceed 500 Men.

Extract of a Letter from Guadaloupe, Feb. 17, 1762.

"*About two Hours ago the Man of War's Tender, "the Dalrymple, came down here, and brought Ad-"vice of the Capitulation of Martinico; since "which I have seen the General's Secretary, who "affirms it to be true.*"

A Gentleman from Martinico, writes as follows; That it was amazing to see the Strength of Fort-Royal; and that if it had been properly defended, we should not have been able to take it: That there were found in it Guns mounted as follows, viz. 14 Forty-two Pounders; 9 Thirty-two Ditto; 23 Twenty-six Ditto; 4 Twenty-four Ditto; 26 Eighteen Ditto, and one Twelve Pounder:—— In all, Seventy-seven Guns.——Mortars, 3 of Thirteen Inches, and one of Seven Inches.—— Powder 600 Barrels.——Shells 575 of Thirteen Inches and an Half, and 22 of Ten Inches.

A few Vessels were found in the Harbour of Fort-Royal, viz. 2 Ships, 3 Snows, 1 Schooner, and 8 Sloops, afloat. Sunk, 9 Ships, 3 Brigs, 1 Schooner, and 2 Sloops; also six Sloops at a Bay above the Harbour,

ANNAPOLIS, *April* 1.

Beside the foregoing Account, of the Surrender of the Island of *Martinico*, to the *British* Arms, and his Majesty's Obedience, we have it sundry other Ways: Capt. *Tucker*, who arrived here on Sunday last, in a Brigantine from Providence, heard it from a Vessel just arrived there from the *West-Indies*; and Yesterday Capt. *Mayberry*, from *St. Kitt's* (which he left the 24th of *February*) informs us they had there a certain Account of the Surrender of the Island: Upon the Whole, there is no Doubt to be made of the Truth of this great and important Conquest, with which we most heartily congratulate our Readers.

Capt. *Mayberry* further informs us, That several *Spanish* Vessels had been taken and carried into *St. Kitt's*, on Suspicion of having *French* Property on board, but were afterwards Discharged.

Tuesday Night last we had a Thunder Gust, uncommon at this Season: On the North Side of *Severn* the Lightning killed a Bull.

Last Week an Overseer at a Quarter of Mr. *Nicholas Dorsey*'s, on *Patapsco*, in this County, gave one of the Negro Men under his Care, such an unmerciful and barbarous Flagellation, that the poor Fellow died soon after; and the Overseer has since made his Escape.

About Eleven Thousand Pounds of our Paper Currency, has been already burnt and destroyed in the Paper Currency Office, this Session, in Presence of a Committee of both Houses of Assembly.

LOTTERY,

For the disposing of Effects to the full Value of Two Thousand Pounds Virginia *Currency, without any Deduction.*

THE Subscriber intending for *England* as soon as he can possibly accomplish it, his Affairs suffering greatly there on Account of his Absence, proposes this Method as the most expeditious to dispose of his Effects. It is with great Diffidence that he addresses the Public, as he is sensible that their Patience and Generosity must be almost wearied out with so many Repetitions of Things of this Nature: And nothing but the present Situation of his Affairs, both here and at home, could have prevailed upon him to do it; which, he would gladly flatter himself, that to his Friends and Well-wishers, to those who feel a secret Pleasure in assisting such as labour under Difficulties, will afford Motives sufficient to remove any Prejudices they may have entertained against Lotteries of this Sort. To the Public in general, very powerful Inducements to adventure will not be wanting. This Lottery is beyond Dispute as well calculated for the Advantage of Adventurers as any yet offered to the Public, as every Article in the Collection will be valued at the lowest Rates, and the Prizes paid off without any Deduction. Almost all the Schemes hitherto presented to the Public, propose a Deduction of Fifteen *per Cent.* at least, to raise, as it is called, a Sum in that Proportion, which, in this present Lottery, would amount to Three Hundred Pounds; which the Adventurers will have the Benefit of, as the Subscriber does not want to make any Advantage by Deductions, but only to dispose of what Effects he has on Hand as soon as possible, at a reasonable Rate.

In the first Place, the Lottery will consist of Eight Tracts of Land (for which effectual Deeds will be given to the Fortunate); great Part of them upon, and none of them Ten Miles distant from, *Patowmack*, which, for Richness of Soil, are exceeded by very few Lands in *America*; and that Lands, particularly such as are situated in the Back Countries daily increase in Value, is a Circumstance too well known to be insisted on.

N°. 1. *Arcadia*, lying upon a Branch of *Patterson*'s Creek, containing 750 Acres, 300 Acres of which may with Ease be made as good Meadow as any in *Virginia*. The greatest Part of the rest is rich enough to produce Corn in great Abundance, without the Trouble of attending after it is put in the Ground. A delightful Stream runs through it, with which, at any Season of the Year, the Whole may be watered.

N°. 2. *Wigton*, lying upon the North Fork of *Patterson*'s Creek, containing 418 Acres of extremely rich and valuable Land, and possessed of every Advantage that Land unimproved can boast of.

N°. 3. *Tirzah*, lying upon the South Branch of *Patowmack*, containing 400 Acres, about 30 Acres cleared, Ten of which as rich Meadow Ground as in *America*. A Tenant lives upon it.

N°. 4. *Kelsike*, lying upon the South Branch of *Patowmack*, containing 230 Acres, betwixt 30 and 40 Acres cleared, was planted with Corn last Year, and produced a prodigious Crop. There runs through it an excellent Stream for a Mill, called *Turn-Mill-Run*, which preserves nearly an equal Height all Seasons of the Year.

N°. 5. *Paphos*, lying upon the Waters of *Patterson*'s Creek, about 7 or 8 Miles from *Patowmack*, containing 221 Acres; which, for Richness of Soil, may vie with any Lands upon the Face of the Earth. The Stream, which waters it, abounds with Trout and a Variety of other Fish. It is situated most advantageously for a Range for Cattle.

N°. 6. *Abby-Holm*, situated upon one of the Waters of the South Branch of *Patowmack*, called *Hickory-Bottom-Run*, containing 400 Acres, 150 of which is extreme rich Bottom, and may be watered at Pleasure. The rest is well adapted for Grain of every Kind. It's Situation also convenient for an extensive Range.

N°. 7. *Mamre*, lying upon the Waters of *Patterson's* Creek, containing 400 Acres, very rich Land, watered with a beautiful Stream.

N° 8. *Cumberland*, lying upon *Stony-Lick-Run*, about 7 or 8 Miles from *Patowmack*, containing 220 Acres of very rich Land, and an extensive Range for Cattle round it.

A very neat Assortment of Dry Goods, fresh, and only now opening; consisting of a Variety of fashionable Silks, newest fashion'd Millinery, and all Sorts of Womens Wear; Broad-Cloths, Jeans, Sagathies and Duroys; Stuffs of sundry Kinds;

Hats laced and plain; together with all Kinds of Mens Apparel; and a Number of other Articles too tedious to mention.

A large and very valuable Collection of Books, in Hiſtory, Divinity, Natural Philoſophy, Commerce, and on almoſt every Art and Science; amongſt which are *Poſtlethwayt*'s Commercial Dictionary, *Chambers*'s Cyclopædia, Twenty Volumes of the Univerſal Hiſtory of all Nations, *Locke*'s, *Addiſon*'s, *Pope*'s, *Swift*'s, Sir *Iſaac Newton*'s, *Monteſquieu*'s, *Voltaire*'s, *Muralt*'s, Marquis *D'Argen*'s, Works; *Rowning*'s, *Graveſande*'s, and *Rohault*'s Natural Philoſophy; *Newintot*'s Religious Philoſopher; *Salmon*'s Geography; *Pliny*'s and *Cicero*'s Letters, tranſlated by *Melmoth*; alſo the latter's Orations and Offices; *Harris* on the Globes; *Rollin*'s Ancient Hiſtory and Belle Letters; *Watts*'s Philoſophical Eſſays; Jeſuit's Perſpective; with a Variety of the beſt Authors on every Branch of the Mathematics. The Reviews, Gentleman's, *London*, and Univerſal Magazines; and a Number of Plays, Novels, and other Books of Entertainment.

A great Variety of the lateſt done Maps, coloured and executed in the moſt elegant Manner. A conſiderable Collection of Perſpective Views of the moſt magnificent public and private Edifices, Bridges, Monuments and Ruins, in *Rome*, *Venice*, *France*, *England*, and *China*; with a curious magnifying perſpective Mirour. A Collection of the genteeleſt Pictures, done by *Hogarth*, and other maſterly Hands. His Election Prints are amongſt them.

The Prizes will be claſſed in ſuch Order, that the Fortunate may have as compleat a Variety as the Value of the Prize will admit of.

The whole Collection to be examined by diſintereſted Perſons, who are well acquainted with the Worth of each Article, and the intrinſic Value to be aſcertained by them, that the Public may be ſatisfied there can be no Fraud in the Undertaking. And to prevent the leaſt Appearance of Confuſion, particular Mention will be made on each fortunate Number in the Wheel, what the Prize conſiſts of. After the Drawing is finiſhed, Care will be taken to forward the Prizes of the Fortunate, that are moveable, to any Part of the Continent, in ſuch Manner as they may pleaſe to order.
